

First Dental Visit by First Tooth or First Birthday

Did you know?

- Infants should have their teeth checked by their first tooth or first birthday.
- The first visit may be done by a dentist or a medical provider.
- It is important to get regular checkups because changes in your child's mouth can happen quickly.

Take the Healthy Mouth Challenge!

I will:

- Schedule my baby's first visit with a dentist or medical provider.
- Put a reminder note on my calendar to schedule my baby's first dental visit. (Set the reminder note about 1 month in advance!)

Schedule my child's first dental visit.
